## WORK EXPERIENCE

**Iterators HQ (2020 Sept - present)**
FRONT-END DEVELOPER

**Xoor Inc. (2019 Nov - 2020 May)**
FRONT-END DEVELOPER

- Mobile and Web development applying React Native as main technology.
- Scrum methodology.
- Mobile projects that I was involved in: e-commerce, medical and alarm systems mobile applications for Android and iOS.
- Desktop project that I was involved in: An inhouse application built with ReactJs and Redux. Assessing the application, a complete estimation of the work was achieved.

**Globant (2019 Sept - 2019 Nov)**
FRONT-END DEVELOPER

- I developed a chatbot front-end application for a multinational audit company.
- Scrum methodology.

**Turner (Turner Broadcasting System, Inc) (2018 May - 2019 Sept)**
FRONT-END DEVELOPER

- I was part of core Cartoon Network International development team, which builds, supports and hosts Cartoon Network International. (more than 30 live sites and internationalized in more than 15 languages).
- The front-end is built in React js while its backend has Node js with Express js framework as main components, it also uses Sass as CSS style extension.
- I built up a TypeScript component library for reusable modules allowing the team to iterate our work and develop new applications using the same resources.
- Mentored new teammates.
- Organized tech talks to share the knowledge among team members.

**Turner (Turner Broadcasting System, Inc) (2017 Sept - 2018 April)**
TECHNICAL SUPPORT ANALYST

- First level operations support.
- Process improvements.
- Implementation of Jira / Service Desk Cloud system as the main ticketing tool.
- Process documentation.

**ADA Bootcamp Front-end (2019 Feb - 2019 May)**
ASSISTANT PROFESSOR AND MENTOR

- I was part of the teaching staff of 30 women class in an educative association that offers a front-end software development bootcamp (among others); giving women means and support while helping them develop knowledge through theoric and hands-on labs.
